BLOCKQUOTES

This is a simple blockquote. Blockquotes are used to highlight quoted text or important information in a document.

This is the outer blockquote containing nested content.

This is the nested inner blockquote. It is indented further to show nesting.

Important Notes

This blockquote contains a heading, a paragraph, and a list element to demonstrate mixed content inside blockquotes.

- First item inside blockquote*
- Second item inside blockquote*
- Third item inside blockquote*

Code inside a blockquote:

```
function greet(name) {  
    return `Hello, ${name}!`;  
}  
console.log(greet("World"));
```

CODE BLOCKS

Use the `console.log()` function to print to the console.

```
// JavaScript Example  
const greeting = "Hello, World!";  
  
function greet(name) {  
    return `Hello, ${name}!`;  
}  
console.log(greet("PDF Reader"));
```

```
# Python Example  
def fibonacci(n):  
    if n <= 1:  
        return n  
    return fibonacci(n-1) + fibonacci(n-2)  
  
result = fibonacci(10)  
print(f"Fibonacci(10) = {result}")
```
